Received: 13 October 2021 / Accepted: 13 October 2021

During further work on this topic, we recognized that some corrections and additions have to be made in our above article, which are summarized in Footnote 1 at the end of the text of our recent publication:

R. Langer, I. Paul, R. Tidecks, Impact of damaging and recovery on the temperature dependence of the work function of oxide electrodes in fluorescent lamps, Eur. Phys. J. Appl. Phys. **96**, 11301 (2021), <https://doi.org/10.1051/epjap2021/210149>

We apologize for the errors made.
