# The European Physical Journal - Applied Physics

## Editors-in-Chief:

- ♦ **Virginie Serin**, CEMES-CNRS, France
- ♦ **Luis Viña**, Universidad Autonoma de Madrid, Spain

**EPJ AP** is an international journal devoted to the promotion of the recent progresses in all fields of applied physics.

## Sections covered:

- Semiconductors and devices
- Physics of organic materials and devices
- Thin films
- Nanomaterials and nanotechnologies
- Photonics
- Spintronics, magnetism and superconductivity
- Imaging, microscopy and spectroscopy
- Plasma, discharges and processes
- Physics of energy transfer, conversion and storage
- Instrumentation and metrology
- Physics and mechanics of fluids, microfluidics
- Biophysics and biosensors
- Surfaces and interfaces
